Participant's Name:_____ CHES ID # _____or MCHES #:_____        Contact Hours: .5

Session Date/Name:  Sunday, March 12, 2023 – Research Laureate Presentation                              4:30 pm - 5:00 pm

Session:  Research Laureate Presentation:  *The Research Career Path: Trying to be Uncommon*
*(A Cautionary Word for the Future of Health Behavior Research)*

Speaker:  Robert J. McDermott, PhD - Editor-in-Chief Health Behavior and Policy Review Paris Scholar Publishing Ltd

- Please rate how well were the learning objectives were met. (Please evaluate each objective in the scale below.

    5=Very well met     4=Well met          3=Somewhat met   2=Not very well met          1=Not met

1.  Listeners should be able to describe early life and early career influences on becoming a researcher.

    5                 4                 3                 2                 1

2.  Listeners should be able to identify reflective tips for the novice or emerging researcher.

    5                 4                 3                 2                 1

3.  Listeners should be able to describe factors that will challenge university-based researchers in the future.

    5                 4                 3                 2                 1

Please circle the degree to which the session met your learning needs.

    5=Very well met     4=Well met          3=Somewhat met   2=Not very well met          1=Not met

- Please rate the speaker on each category on the table below.

    5=Excellent          4=Good          3=Fair          2= Poor          1=Very poor

Session Date/Name:  Monday, March 13, 2023                                                          12:45 pm – 2:00 pm

Professional Development and Mentorship

Title:  Power, precision, and sample-size analysis in Stata, with notes on reproducible reporting

Speaker: Gabriela Ortiz, Senior Applied Econometrician, StataCorp  (Zoom)

- Please rate how well were the learning objectives were met. (Please evaluate each objective in the scale below.)
  5=Very well met      4=Well met          3=Somewhat met   2=Not very well met          1=Not met

1. Perform power and sample-size analysis with Stata's **power**
   suite of commands                                                      5        4        3        2        1

2. Perform precision and sample-size analysis with Stata's
   **ciwidth** suite of commands                                          5        4        3        2        1

3. Perform sensitivity analyses with graphs and tables          5        4        3        2        1

4. Create a reproducible report with Stata results and graphs.   5        4        3        2        1

   Please circle the degree to which the session met your learning needs.

   5=Very well met             4=Well met           3=Somewhat met   2=Not very well met          1=Not met

- Please rate the speaker on each category on the table below.

5=Excellent                 4=Good                 3=Fair                 2= Poor                 1=Very poor

  *This session will describe key skills for authentically articulating and integrating diversity in academia.  Attendees will learn how to:*

- Please rate how well were the learning objectives were met. (Please evaluate each objective in the scale below.)

  5=Very well met     4=Well met          3=Somewhat met   2=Not very well met          1=Not met

  1.  Write a diversity statement.

          5                    4                    3                    2                    1

  2 .   Review diversity statements.

          5                    4                    3                    2                    1

  3. Consider diversity in academic searches.

          5                    4                    3                    2                    1

Please circle the degree to which the session met your learning needs.

  5=Very well met              4=Well met          3=Somewhat met   2=Not very well met          1=Not met

- Please rate the speaker on each category on the table below.

                    5=Excellent        4=Good          3=Fair          2= Poor          1=Very poor

| Speaker | Knowledge of subject matter | Organization/ clarity of presentation | Useful information | Speaker- participant interaction | Use of allotted time | Audio-visual aids |
|---|---|---|---|---|---|---|
| Dr. Lisako McKyer | | | | | | |

Please rate the overall quality of this session on the scale below.

    5=Excellent (7)     4=Good              3=Fair              2= Poor              1=Very poor

Date/Name:  Wednesday, March 15, 2023                                                                10:15 am – 10:55 am

Meeting Summary Discussion & Future Implications

Speaker:  Lawrence W. Green, DrPH, ScD (hon) - Professor Emeritus, Dept of Epidemiology & Biostatistics
                            School of Medicine, Univ. of California at San Francisco

- Please rate how well were the learning objectives were met. (Please evaluate each objective in the scale below.)
  5=Very well met     4=Well met        3=Somewhat met   2=Not very well met          1=Not met

1.    Discuss the implications related to research presented for theory and applications of multiple health behavior change.

       5                  4                  3                  2                  1

2.    Explore important questions yet to be answered regarding the research presented.

       5                  4                  3                  2                  1

3.    Identify future directions in heath behavior research in academia and beyond.

       5                  4                  3                  2                  1

Please circle the degree to which the session met your learning needs.

       5=Very well met            4=Well met        3=Somewhat met   2=Not very well met          1=Not met

- Please rate the speaker on each category on the table below.
  5=Excellent        4=Good           3=Fair           2= Poor           1=Very poor

| Speaker | Knowledge of subject matter | Organization/ clarity of presentation | Useful information | Speaker-participant interaction | Use of allotted time |
|---|---|---|---|---|---|
| Dr. Lawrence Green | | | | | |

Please rate the overall quality of this session on the scale below.

       5=Excellent        4=Good           3=Fair           2= Poor           1=Very poor
